PROFESSIONAL SUMMARY

Results-driven Generative AI and Python Developer with experience in designing scalable backend architectures and integrating **LLM-powered applications**. Proficient in leveraging Python, FastAPI, and advanced prompt engineering to build robust solutions. Proven track record of automating complex data workflows, deploying models on cloud platforms (Azure), and reducing manual processing times by up to 80% through AI-driven API integrations.

SKILLS

Programming Languages: Python, SQL, C++ (Basic)

Frameworks & Libraries: FastAPI, Flask

Data Science & AI: Generative AI, Machine Learning, Pandas, Numpy

Cloud & Tools: Microsoft Azure, Azure Blob Storage, Key Vault

Engineering Practices: REST APIs, Full-Stack Development, Application Architecture, Database Integration

Leadership & Soft Skills: Team Leadership, Stakeholder Communication, Problem Solving & Critical Thinking, Ownership & Accountability

WORK EXPERIENCE

Tata Consultancy Services (TCS), Systems Engineer Feb 2025 – Present | Noida, India

- Developed and optimized **scalable backend systems** using Python frameworks, **Generative AI tools, and APIs (LLMs, TCS AI Wisdom Next)** to automate workflows, improving application performance and maintainability.
- Collaborated with cross-functional agile teams to deliver high-quality solutions aligned with enterprise standards, improving delivery timelines by **20%**.
- Designed and deployed **REST APIs** for seamless system communication and data exchange across multiple business applications.

Extremum Analytics, Associate Analyst Jul 2024 – Feb 2025 | Gurgaon, India

- Built and deployed **RESTful APIs using FastAPI and Flask**, enabling seamless integration of **Generative AI functionalities** into production systems.
- Designed cloud-based solutions using **Azure**, ensuring secure and scalable data handling.
- Automated data processing pipelines, reducing manual intervention and improving operational efficiency by **30%+**.
- Collaborated with stakeholders to debug production issues and enhance system reliability and performance.

PROJECTS

Letter Lyzer Development System

- Engineered a **configuration-driven data extraction pipeline** for a banking client, reducing manual processing effort by **80%**.
- Processed complex raw text files across **20+ applications**, dynamically extracting and transforming data using configurable JSON-based logic.
- Automated cross-referencing of extracted account IDs with CSV datasets, ensuring **accurate data mapping and formatting**.
- Designed a scalable architecture that centralized business logic, significantly reducing code dependency and improving maintainability.
- Tech Stack:** Python, JSON Configuration, Data Transformation, Text Parsing

Automated OCR Document Processing System

- Developed automated pipelines leveraging **Azure OCR and AI services** to extract and process documents, improving efficiency by **75%**.
- Built **REST APIs** for document validation, processing, and integration with frontend systems.
- Integrated **Generative AI components** to enhance document understanding and automation workflows.
- Tech Stack:** Python, FastAPI, Flask, Azure Cloud, Blob Storage, Key Vault

Dynamic Emotion Recognition System using Deep Learning

- Developed a real-time **emotion recognition system** capable of detecting multiple faces and logging outputs with timestamps.
- Trained on a dataset of **35,000+ images**, improving model robustness and generalization.
- Implemented and optimized the **VGG-19 model**, achieving **61.7% accuracy** in emotion classification.
- Tech Stack:** Python, Deep Learning, Computer Vision, Flask, HTML, CSS, JavaScript

EDUCATION

B. Tech. in Computer Science and Engineering with AI & DS , Panipat Institute of Engineering and Technology CGPA: 9.04	2020 – 2024 Panipat, Haryana
Senior Secondary (XII-CBSE) , Gita Vidya Mandir Sr. Sec. School Percentage: 87.4	2019 – 2020 Gohana, Haryana
Secondary (X-CBSE) , Gita Vidya Mandir Sr. Sec. School Percentage: 88.4	2017 – 2018 Gohana, Haryana

ACHIEVEMENTS

• Xcelerate Warrior Certificate , TCS	2026
• AI Idea Igniter , TCS	2025
• Student of the Batch - CSE AI & DS , PIET	2024
• Batch Topper - CSE AI & DS , PIET	2024
• Ranked 7th in Best PIET Achiever's , PIET	2022

CERTIFICATIONS

• Digital Python Ez , TCS Learning	2026
• Intro to AI Applications, Vertex AI & Agent space , Udemy, TCS	2026
• LangChain: Develop LLM-powered Applications , Udemy, TCS	2025
• Python for Data Science , IBM Developers Skills Network	2022
